And the

## Restore America Plan

Like a Thief In the night, long, long ago, someone literally took away our Constitution without firing a shot. How did that happen? How could this happen? Why weren't the American people aware of what was happening? Why did it happen?

In the presentation you have just seen, Mark Allen Wasmuth gave us an historical overview of what happened, how and when and why we were unaware. The "why" it happened may yet be a little more elusive but based on all we are seeing happening in our country today, the "why" is all the more becoming more and more of a sinister plot to establish what has been called a One World Order.

The next questions we have to ask are do we want to accept what is happening? Are we willing to let everyone else fight for our liberty? Are we willing to let our country become a socialist nation ruled by a dictator controlling every aspect of our lives? Are we willing to let our children and grandchildren live without the freedoms we cherish so dearly.

As for me and mine, I am not willing to see my Constitution thrown to the wayside as if it never existed and if you feel the same way, now is the time to really understand that if we don't know what happened, or how, we are doomed to let it happen again, and to willfully accept what is happening now.

**The good news is we don't have to accept the destruction of our Constitution. We have a remedy, given to us by the very Constitutional Document we hold so dear.**

*"The individual is handicapped by coming face to face with a conspiracy so monstrous that people cannot believe that it even exists."*

J. Edgar Hoover

Can an election in 2012 change what has happened?

Have past elections changed anything?

Will we even have national elections in 2012 if this Dictatorship persists?

*"If you love wealth better than liberty, and the tranquility of servitude better Than animated context of freedom, go home from us in peace, we ask not your council, Or your arms, crouch down and lick the hands and the feet of those that feed you, may your Chains set lightly upon you and may posterity forget you were ever our countrymen."*

Samuel Adams

# What Happened?

- In 1860 Congress Recessed Sine Die. Congress could not legally reconvene because no future date was set to reconvene Congress.
- Abraham Lincoln became President and the Civil War began.
- The Civil War was not about slavery but instead was fought to enslave an entire nation.
- At the end of the Civil war a peace treaty was never signed. So military rule as established during the war remained in tact. General Orders #100, known as the Lieber Code set forth the Rules of Engagement for the Civil War. This document put into motion the existence of military rule which is still in place today. The next time you go into a court room make note of the military flag on display. You are indeed under military law. Executive orders can only be issued during a time of military occupation. And we have had over 12,000 of them.
- The Reconstruction Acts of 1867 allowed a De Facto government to be established outside the Constitution since Congress could not reconvene without the consent of the people. The military was being used to coerce the people into changing the entire structure and character of state governments and to compel them by force to the adoption of organic laws (14th amendment).
- The Trading with the Enemy Act of 1917 was intended to deal with countries we were at war with during WWI. This act gave the President and the Alien Property Custodian the right to seize assets of the people included in this act. In 1933 the TWEA act was amended at 48 Stat 1 to include the United States Person in order to take away our gold since now we were reclassified as enemy combatants.
- *Downes v. Bidwell*, 182 U.S. 244 (1901) Dissenting opinion of Justice Marshall Harlan. “*Two National Governments exist, one to be maintained under the Constitution, with all its restrictions, and the other to be maintained by Congress outside and independently of that instrument.*”. *Senate Report 93-549 states “The United States has been under dictatorial control since March 9, 1933.”*

## The Results of these historical events:

- An Entire Nation was enslaved under military rule.
- The Reconstruction Acts established a De Facto government that was forced on the states at the end of a bayonet. Our original 13th amendment was replaced illegally with the 14th amendment which was never ratified by the states.
- In 1917 the Trading with the Enemy Act was established to deal with foreign enemies and then in 1933 it was amended to include all persons. We lost our right to own property and we lost our gold. Senate Doc 43 known as Senate Resolution 62 April 17, 1933, states that:

*“The ultimate ownership of all property is in the State; individual so-called “ownership” is only by Virtue of government, i.e. LAW and subordinate to The necessities of the state”.*

Check the deed to your property, it reads, “Tenants By the Entirety”. Now you know what that means.

## Other Major Events that have changed our lives in a most dramatic Way:

- In 1913 The Federal Reserve Bank was established which served as a Central Banking System. Charles A. Lindberg, R-NM stated: “The financial system has been turned over to the Federal Reserve Board. That board administers a finance system by authority of a purely profiteering group. That system is private, conducted for the sole purpose of obtaining the greatest possible profits from the use of other people’s money. This (Federal Reserve) Act established the most gigantic trust on earth. When the president signs this bill, the invisible government by the monetary power will be legalized.” In 1913 the Federal Reserve Act was passed with only 3 congressmen voting on. **THE FEDERAL RESERVE IS PRIVATLY OWNED. IT IS NO MORE FEDERAL THAN FEDERAL EXPRESS. PRIVATE BANKERS CONTROL YOUR MONEY- AND EVERY DECISION THAT IS MADE IN WASHINGTON, DC.**

# Facts You May Not Have Learned in School

- According to the Grace Commission Report Commissioned by Ronald Reagan in 1984:

One-third of all taxes is consumed by waste and inefficiency in the Federal Government. Another one-third of all taxes escapes collection from others as the underground economy blossoms in direct proportion to tax increases and places even more pressure on law abiding taxpayers. 100% of what is collected is absorbed solely by interest on the Federal debt and by the Federal Government contributions to transfer payments. In other words, all individual income tax Revenues are gone before one nickel is spent on the services which taxpayers Expect from the their Government.

- Interest on The Federal debt is paid directly to the Federal Reserve, the private bankers. After all, all money is a debt to the Federal Reserve. That dollar bill in your pocket is a “Federal Reserve Note”, a debt note payable to the Federal Reserve.
- The IRS like the Federal Reserve is also a private corporation. The Government Accounting Office (GAO) sated in 2007 that “*the IRS is a foreign corporation*”.
- The 1954 Army Handbook has the IRS listed as a “Foreign Debt Collector”. The IRS is a debt collection agency for the Federal Reserve. So just why are we paying taxes to a private corporation who uses a foreign debt collection agency?
- Who owns the Federal Reserve? Eustace Mullens lists the owners as follows:
  - The Rothschild’s
  - Lazard Freres (Eugene Mayer)
  - Israel Sieff
  - Kuhn Loeb Company
  - Warburg Company
  - Lehman Brothers
  - Goldman Sachs
  - The Rockefeller Family and J. P. Morgan Interests
- Washington, DC is owned by the International Monetary Fund (IMF) and the Queen of England has a lease on the White House. And we thought we owned the White House. Washington, DC is a private corporation which sits on a 10 mile square parcel of land known as Washington, DC

## Facts You May Not have Learned in School

Continued:

- Did you know that your Social Security is Paid to the Queen of England? Look at the Social Security Act as amended in 1997, Statutory Instrument 1997 No. 1778.
- Every State in the nation has a General Fund and a CAFR Fund which is completely separate from the General Fund. It is known as the North Carolina Comprehensive Annual Financial Report. As of June 30, 2009, this fund had over \$70 billion in net assets. And why do they keep telling us we are out of money? Check out [www.CAFR1.com](http://www.CAFR1.com) and learn more about the funds.
- Is our Current Money backed by substance? No. When the United States stopped selling gold to foreign official holders of dollars at the rate of \$35 an ounce in 1971, it brought the gold exchange standard to an end. In 1973, the United States officially ended its adherence to the gold standard. In August 1974, President Ford repealed the prohibition on the public's owning gold or engaging in gold transactions....
- How is Money actually created. Of course, the Federal Reserve prints it, but it is actually created by "our slave labor". Congress tells the Treasury to sell bonds to the Federal Reserve so the Fed can create money (these bonds are based on your labor).
- Do Banks loan real money? No. They are prohibited from loaning out depositors or investors funds so that create "fake" money through a fractional banking system.
- When you bought your house, you were not loaned any real money. After all there is no real money. There is nothing to back up our currency so how can it be real money. It is just an entry on the minus or plus side of a bank's ledger. The loan for your home was created by your signature on a note and that note was deposited into a bank account with your name on it. Yet who gets the interest on that account. Certainly not us. As a matter of fact, when you note with your signature on it is deposited into a bank account, your mortgage is paid in full. Yet you keep paying interest to a bank that has already been paid. And they that mortgage note is sold several more times and your note gets paid several more times yet you still pay your mortgage each month. Figure that one out!
- If Banks are not allowed by law to loan out their depositor's funds, etc. how is it that debt is created. It is all smoke and mirrors. Debt is actually fraudulent in nature. Your signature is the only thing that is used to create debt. Your signature is traded over and over to other banks and lenders and yet you get no interest on what is earned from your debt. You just keep paying and paying.

**Now How do we Fix This Mess?**

## The Restore America Plan

- It is time for God's people to re-establish the type of government our founding fathers shed so much blood for and spent so much treasure to give us...It is time to restore America and the Republic.
- The Supreme Court has said that the De Jure (common law) government offices still exist but the people have failed to occupy them.
- We re-inhabit the De Jure Grand Jury form of government (common law government) in all 50 states, circa 1776
- The De Jure Grand Juries have been seated in all 50 states and orders have gone out to the Governors. We have to put our officials back under Constitutional Rule and out of Corporate (Or military) rule that they are currently operating under.
- We take back our Constitution circa 1776 and once again establish our state sovereignty in all 50 states, completely separated from the de facto government known as Washington, D.C. Now when our elected officials take an oath to support the Constitution it will mean something. They will be taking an oath to serve the people, not the government.
  - As a result, the Federal Reserve and the IRS will be abolished.  
No more private bankers in control of our destiny.
  - Since debt is fraud, we will put an end to mortgage foreclosures and other forms of debt. No longer will the private banking cartel be able to steal our homes and land and the UN will no longer be able to take Our National Parks out of our control.
  - Our founding fathers envisioned a land governed by God's Law. It is time we Really understood the parallel between the Ten Commandments and the Bill of Rights. Our rights are given to us by God and God's laws, not by man's law. Our unalienable rights cannot be erased or mandated by the stroke of a pen.
